REPORT OF THE ONE- DAY MANAGEMENT TRAINING, EQUIPMENT HANDLING AND MAINTENANCE FOR THE STEERING COMMITTEE AND OPERATORS OF THE SDF PROJECT TAGGED ALAGBEDE AGRO-PROCESSING CENTRE

Introduction

Women's Economic Empowerment through Local Technology in Rural Communities of Akinyele Local Government Area of Oyo State, Nigeria is a project supported by the Social Development Fund of French Embassy in Nigeria. The project is located in Alagbede village in Akinyele Local Government Area of Oyo State, Nigeria. Alagbede is equidistant to the major marketing communities along Ojoo/Igbo-Oloyin and Alade/Iware axis of Akinyele local government area. There are over fifty villages along this axis. Alagbede village is central to all other villages that make it easy for people to come from either sides of the marketing villages to the technology center for patronage.

Estimated 2,500 people including 75 percent women from all the communities are to be direct beneficiaries. These poor people were chosen because they also lack knowledge of methods of increased productivity as they are fond of using old method of processing food and palm oil, or using grinding stone to crush palm kernel. These old methods reduce productivity. Coupled with lack of knowledge, due to their low socio-economic status many of them cannot afford acquiring the necessary machinery for increased productivity nor have access to the high yielding seedlings.

It is not enough to provide all these equipment for the communities, the need to train the communities on the running and use of these facilities is important since they have never used them before. Therefore, the training was organized bothering on equipment handling and servicing and project management. The project management training involved the project steering committee who are seeing to the day-to-day running of the centre. These members are drawn from among the communities who elected them to be their representatives. Since this is a community project, it is expected that people should be allowed to choose freely those they want to be in the committee. These people therefore would need training on internal democracy, simple book keeping, how to run and monitor a community project, conflict resolution and how to provide security to the centre. Training like this would give a sense of ownership and belonging while the sustainability of the project would greatly depend on the community members who already see the project as theirs.

Training Session

There was opening prayer from Mrs. Bola Adejare. Welcoming participants to the training the chair of the steering committee Madam Moyiola Akinade appreciated the facilitator of the project (CAFSO-WRAG for Development) and encouraged members to be attentive during the training and make it a participatory one. She also enjoyed members to always see the project as theirs so that it can serve the purpose of establishing it in the locality.

In his opening remarks the Principal Coordinator, Dr David Tola Winjobi who used local language to communicate with the participants so that they would understand the

concept behind the project right from the conceptualisation up till the stage we are. He explained how the project was conceptualised due to our long relationship in working with the people of the rural areas in the local government. He also mentioned that there were many villages that picked interest in locating the project in their domain such as; Olunlosin and Arulogun. But because of the equidistant location of Alagbede to other neighbouring villages it was preferred, though with a lot of challenges especially on the issue of land.

He also mentioned some of the challenges faced during the implementation of the project on borehole as the borehole was drilled but with insufficient water to accommodate the submmersive pump planned to install. He also mentioned that another geophysical survey was carried out by the contractor but we are yet to get the result. Dr Tola Winjobi informed the gathering on the efforts he made to get in touch with the local government care taker chairman at Moniya who promised to be part of the success of the project. He mentioned that we also visited the Ministry of Agriculture as well and the commissioner directed the director in charge of such project to make a visit and summit her report. He said the director made some suggestion on the building which the organisation is trying to consider before the commissioning.

He mentioned that training was in two folds as one was for the steering committee members while the other one was for the operators on handling and maintenance of the machinery. He informed the gathering that another bigger training is coming up where it will involve larger number on the best crops and species to plant for high yielding. After his presentation, there was introduction of participants.

Training session – Equipment Handling

The following session were taken by the technician who served as the resource person. Understanding parts and spare parts of agro-machinery; fault detection and fixing; use of lubricants and diesel; preventing fire outbreak and finally mode of operating the equipment. The operators were taken round the practical session and they were allowed to explain some of the challenges they were facing during the test running of the centre.

Training session Understanding Community Project Management

The resource person also used the local language (Yoruba) to facilitate the session so that the participant's would be carried along and understand the concept of the training. The training was facilitated by the Executive Director Community Development Alliance Mr S.O.A. Okewoye. In his presentation he discussed the following and how they can be used in community project implementation; (factors of production in a community project; essentials of project management; Internal democracy; organizational/management structure; organizing meetings; board and staff relationship; settling disputes; Financial management: principles of financial management; record keeping; issues of transparency and accountability etc)

There was a break out session of participants into four groups where assignment was given to the participants with expectation that they would report back at plenary for discussions.The following questions were asked each groups

Group 1
Discuss the roles of Communities in the establishment of the project

Group 2
Who are involved in the management of the project?

Group 3
How can the project be sustained?

Group 4
Why should we resolve any dispute on conflict amicably?

Each group reported back at plenary and each representative from each group made their presentation and this gave everybody more clarifications on the topics of discussion.

Closing

Refreshment and lunch were served and there was group presentation as well. Vote of thanks was delivered by the deputy coordinator, while the closing prayer was said by Mrs. Agnes Tola-Winjobi

Annex 1a Programme

CAFSO-WRAG FOR DEVELOPMENT ALAGBEDE AGRO-PROCESSING CENTRE PROJECT MANAGEMENT TRAINING HELD ON WEDNESDAY 25TH OF JANUARY 2012 AT ALAGBEDE VILLAGE, AKINYELE LOCAL GOVERNMENT AREA, OYO STATE NIGERIA

1. OPENING: Prayer – Mrs Bola Adejare
2. ADDRESS OF WELCOME: Chairlady, Project Steering Committee - Mama Moyiola Akinade
3. OPENING REMARKS ON THE PROJECT: Principal Coordinator, Dr D. Tola Winjobi
4. INTRODUCTION OF PARTICIPANTS/RESOURCE PERSONS
5. SESSION I: EQUIPMENT HANDLING (understanding parts and spare-parts of agro-machinery; fault detection and fixing; use of lubricants and diesel; preventing fire out-break)
6. SESSION II: UNDERSTANDING COMMUNITY PROJECT MANAGEMENT 1 - Mr Samuel Okewoye, Executive Director, Community Development Alliance (factors of production in a community project; essentials of project management etc)
7. SHORT BREAK: Refreshment
8. SESSION III: UNDERSTANDING COMMUNITY PROJECT MANAGEMENT 2 (Internal democracy; organizational/management structure; organizing meetings; board and staff relationship; settling disputes etc)
9. BREAK OUT SESSION: Assignment/discussions
10. SESSION IV: UNDERSTANDING COMMUNITY PROJECT MANAGEMENT 3 (Financial management: principles of financial management; record keeping; issues of transparency and accountability
11. LUNCH BREAK
12. QUESTION AND ANSWER SESSION

13. VOTE OF THANKS: Deputy Coordinator Mrs Deborah Olaolu Salami
14. CLOSING PRAYER: Mrs Agnes Olayinka Tola-Winjobi
15. DEPARTURE

TRAINING PROGRAMME FOR THE STEERING COMMITTEE OF RURAL AGRO-ALLIED INDUSTRIAL PROJECT ORGANISED BY CAFSO, IBADAN, OYO STATE HELD ON WEDNESDAY, JANUARY 25, 2012

PRE-TEST (Written or Oral) !

FIRST DISCUSSION :

"APPLYING MANAGEMENT CONCEPTS FOR THE SUCCESSFUL IMPLEMENTATION OF THE PROJECT"

INTRODUCTION

Management could best be defined at this local level as **"ability to use what we have to achieve what we want"**

Management concepts has many ingredients embedded in it. Proper application of management concepts and its ingredients will enhance successful implementation of on-going project or programme.

SOME INGREDIENTS OF MANAGEMENT CONCEPTS :

1. Efficiency
2. Effectiveness
3. Diligence
4. Skillfulness
5. Resourcefulness
6. Prudency
7. Consciousness
8. Transparency
9. Accountability
10. Perseverance

MAINTENANCE CULTURE :

Maintenance culture is another major concept of management which could make a project last longer.

Some aspects of maintenance are :

1. Facility maintenance
2. Plant/machinery maintenance
3. Commodity maintenance
4. Operational maintenance
5. Commercial maintenance
6. Human maintenance

SUSTAINABILITY PROCESS :

Sustainability is the overall goal of the Project. It is therefore paramount to start sustainability and ownership process right from the onset of the Project. The following steps are necessary :

1. Participatory Community Needs Assessment
2. Identification of Stakeholders involved in the Project
3. Commitments of individual Stakeholder
4. Establishment of the Project at a central location
5. Accessibility of the Project by the communities
6. Recruitment of qualified personnel among members of the communities involved
7. Ensure stable Patronage by the end users
8. Monitoring and Evaluation of the Project (both at the beginning, middle and end)
9. Proper Documentations with appropriate authority
10. Handing-over ceremony

PROPER APPLICATION :

The Steering Committee should ensure proper application of the highlighted ingredients of management concepts, maintenance culture and sustainability process.
There may the need to set-up some ad-hoc committees to handle each aspect.
This will surely enhance successful implementation of the Project.

Thanks for your participation !

GROUP WORK / PRESENTATIONS !!

1. What are the Roles of Community members in the establishment of the Project ?
2. Who are involved in the Management of the Project ?
3. How can the Project be sustained ?
4. Why should we resolve any dispute or conflict amicably ?

SECOND DISCUSSION :

"RESOLVING DISPUTES AND CONFLICTS AMICABLY"

DEFINITION :

Disputes or conflicts could be simply defined as "**misunderstandings between two or more parties that could result into internal or external quarrel or fight".**

These could manifest due to human imperfection, wickedness, ignorance or deliberate intention/action.

REMOTE CAUSES :

1. Communication gap
2. Misconception
3. Ethnicity or Tribalism
4. Landed properties acquisition
5. Boundary violation
6. Religious differences
7. Position / Power tussle
8. Wealth / Affluence
9. Marital problem
10. Political intolerance

CONSEQUENCIES :

1. Rancor
2. Hatred
3. Fighting
4. Violence
5. War
6. Discord
7. Divorce
8. Abandonment
9. Destruction

10. Insecurity

STEPS FOR AMICABLE RESOLUTION :

1. Mutual Communication
2. Clear understanding
3. Avoid Misconception
4. Settle any difference immediately
5. Tell others their errors or mistakes
6. Admit your mistakes, tender apology and make necessary corrections
7. Always look for good in other people
8. Do not be fault finder
9. Learn how to say – Please, Sorry, Thank you
10. Respect others' view, do not become too wise in your own eyes
11. Be Flexible, Approachable and not too Rigid
12. Avoid 'Holier Than Thou' attitude

GOLDEN RULES :

These are few suggested scriptural golden rules to follow to maintain good relationship with other people:

1. "All things you want other people to do to you, you also must do the same to them"

   - Matthew 7:12, Luke 6:31

2. "Be Peaceable with all People as far as possible for you" - Romans 12:18
3. "Do not Retaliate or Avenge yourself - Proverbs 24:29; 25:21, 22; Romans 12:19-21
4. "Do not grab Dog ears" - Proverbs 26:17
5. "Before quarrelling burst out take your leave" - Proverbs 17:14
6. "Settle matter quickly before it becomes big"
7. "Do not be haste to conduct legal case against your fellowman" - Proverbs 25:8
8. "Do not reply to a matter before hearing it" - Proverbs 18:13
9. "Do not lean upon your own understanding" - Proverbs 3:5
10. "In showing honour to one another take the lead: - Romans 12:10

11. “Pursue the things making for peace” - Romans 14:19
12. “Avoid bitterness, anger and abusive language” - Ephesians 4:31
13. “Freely forgive and forget” - Ephesians 4:32

Finally, the major requirement to attain good relationship with other people is our own

A	T	T	I	T	U	D	E		
1	20	20	9	20	21	4	5	=	100 %

Please keep your ATTITUDE Fine among all people !

THANK YOU

POST - TEST (Written or Oral) !!!

The same questions as in Pre-Test

Presented by :

Mr. S. O. Okewoye
Executive Director
COMMUNITY DEVELOPMENT ALLIANCE (CDA)
Office No. 218, Adelabu Shopping Complex
Orita Challenge
Ibadan, Oyo State, Nigeria.

08057212433, 08136263141, 08084837886.

PRE – TEST **(15 mins.)**

Kindly answer all the questions within the allotted time :

1. **What is Management ?**
2. **Mention 3 of the ingredients of Management Concepts ?**
3. **How can you apply them on the established Project ?**
4. **What are the remote causes of Disputes or Conflicts within some Communities ?**
5. **Mention 4 consequences of Disputes and Conflicts ?**
6. **How can Disputes and Conflicts be resolved amicably among those involved ?**
7. **What benefits the communities will derive from the Project and how can it be sustained ?**
